

# WORKSHOP ON CHOICE-PROCESS DATA

|               |                                                                                                                                                                      |
|---------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 8:50 – 9:00   | Opening remarks from the organizers                                                                                                                                  |
| 9:00– 9:40    | <b>Keynote:</b> TBD<br><i>Ming Hsu (UC Berkeley, Haas School of Business)</i>                                                                                        |
| 9:40 – 10:00  | What do people think about?<br><i>Joshua Tasoff (Claremont Graduate School)</i>                                                                                      |
| 10:00 – 10:15 | <b>Break</b>                                                                                                                                                         |
| 10:15 – 10:55 | <b>Keynote:</b> TBD<br><i>Kirby Nielsen (Caltech)</i>                                                                                                                |
| 10:55 – 11:15 | Eliciting decision rules in general vs. concrete insurance problems<br><i>Ayala Arad (Tel Aviv University, Coller School of Management)</i>                          |
| 11:15 – 11:30 | <b>Break</b>                                                                                                                                                         |
| 11:30 – 11:50 | The Effects of Across-Trial Lottery-Outcome Variance on Gaze and Choice<br><i>Anthony Miceli (UCLA)</i>                                                              |
| 11:50 – 12:10 | Biological correlates of rational inattention<br><i>Joseph Tao-yi Wang (National Taiwan University)</i>                                                              |
| 12:10 – 1:40  | <b>Lunch</b>                                                                                                                                                         |
| 1:40 – 2:10   | <b>Tutorial:</b> Combating AI agents in online experiments<br><i>Kianté Fernandez (UCLA)</i>                                                                         |
| 2:10 – 2:30   | Asking the right questions: Flexible information acquisition for decision under uncertainty<br><i>Pete Robertson (Stanford)</i>                                      |
| 2:30 – 2:45   | <b>Coffee Break</b>                                                                                                                                                  |
| 2:45 – 3:25   | <b>Keynote:</b> TBD<br><i>Joseph Kable (University of Pennsylvania)</i>                                                                                              |
| 3:25 – 3:45   | Attribute latencies underlie heterogeneity in risk attitudes and behavioral anomalies<br><i>Fadong Chen (Zhejiang University)</i>                                    |
| 3:45 – 4:00   | <b>Break</b>                                                                                                                                                         |
| 4:00 – 4:20   | Cognition is the Invisible Hand: How Response Times Make Markets Allocationally Efficient<br><i>Brenden Eum (University of Toronto, Rotman School of Management)</i> |
| 4:20 – 5:00   | <b>Keynote:</b> TBD<br><i>Marta Serra Garcia (UC San Diego)</i>                                                                                                      |
|               |                                                                                                                                                                      |
|               |                                                                                                                                                                      |
|               |                                                                                                                                                                      |

Organizers:

Ian Krajbich (UCLA)

Charles Noussair (University of Arizona)
